NEWSLETTER

Dear Habib Girls' School Family,

April 2026 was a month of meaningful milestones and a deep commitment to our future. In our Higher Secondary Section, our students took a significant step toward global citizenship through the WWF Pakistan Training, engaging in vital lessons on environment and sustainability.

We also shared a poignant moment during Uniform Signing for the Batch of 2026. As our seniors marked their last day, we celebrated the laughter, friendships, and lasting legacy they leave behind. I am incredibly proud of our students' growth and the heart they put into every endeavor as we continue to foster a community that is both responsible and deeply connected.

Best regards,

Farzana Jamal

Principal
Habib Girls' School

Editor's Note

Dear Fellow Habibians,

This month was defined by bittersweet goodbyes and a commitment to our future. Our College section took a stand for the planet through the WWF Pakistan Environment and Sustainability Training, proving that we are ready to lead with purpose.

The most emotional highlight was undoubtedly Uniform Signing for the Batch of 2026. As our seniors celebrated their last day, the laughter and ink-stained shirts served as a beautiful tribute to the years spent growing together. These moments remind us that while chapters end, the bonds we've built at Habib are forever. Let's carry this spirit of sustainability and sisterhood forward!

Kind Regards,

Mishal Afaq

Head Girl
Habib Girls' Higher Secondary Section

SCHOOL EVENTS

BACK WITH A BANG: TINY LEARNERS, BIG ENERGY!

After a refreshing week-long break, our pre-primary hallways are once again alive with the sounds of laughter and excitement. The children returned to campus vibrant and full of energy, eager to dive back into their favorite classroom activities and reconnect with friends. From hands-on creative projects to spirited play, their enthusiasm has set a joyful tone for the month ahead. We are thrilled to see our youngest learners back in action, turning every lesson into a celebration of curiosity and growth.

UNIFORM SIGNING: THE LAST DAY FOR THE BATCH OF 2026

The students of HGHSS, batch of 2026, marked their final day with color, laughter, and heartfelt goodbyes, transforming simple uniforms into keepsakes of shared years. They created lasting memories by writing farewell notes for their friends and classmates. Every signature carried a precious moment, forever etched into the fabric, while painted hands left marks that feel impossible to let go. This cherished tradition marked not only the end of an academic journey but the closing of a chapter that shaped who they had become. While the uniforms may fade, the memories etched into them and into their hearts will remain timeless.

NEWS & EVENTS

WWF PAKISTAN: ENVIRONMENT AND SUSTAINABILITY TRAINING

Students of HGHSS recently participated in an insightful training session conducted by WWF Pakistan on Environment and Sustainability, focusing on Capacity Building for Sustainable Development and Climate Action. The session aimed to raise awareness among students about pressing environmental challenges and the importance of adopting sustainable practices in everyday life. Through engaging discussions, students gained a deeper understanding of climate change and the role young individuals can play in protecting the planet. The training encouraged participants to act responsibly and empowered them to contribute actively toward a more sustainable future.

STUDENT CORNER

MORNING ASSEMBLIES IN CLASSROOMS

Morning assemblies have been shifted from whole-section ground gatherings to classroom-based assemblies, allowing for focused group discussions with students and the opportunity to address daily relevant topics. This approach helps build a collaborative environment where each child develops an understanding of the essential moral values that should be instilled in every individual, while also ensuring that every child feels heard and valued.

PBL - GRADE IV (FROM AWARENESS TO ACTION RESTORING OUR PLANET)

Grade IV students engaged in a PBL project titled From Awareness to Action: Restoring Our Planet. Through interviews, observations, data collection, and research, they explored meaningful ways to make the Earth a better place to live. They thoughtfully presented their work in front of their section to spread awareness and inspire others to take action for the environment.
