## Editor's Message

Education is a gift that none can take away.

In the last sixty years, HPS has been able to shape the future of a great number of students. With the glorious start of the 2022, it continues to provide them with learning opportunities and skills in as many aspects as possible. The boundaries of a classroom may place restrictions on their imaginations. However, the in-house facilities along with the co-curricular activities contribute to their practical learning and aids them to understand the true values of life.

During the last couple of months, the students of HPS participated in multiple Inter-House and Inter-School tournaments. The Habibians displayed their competitive spirit and enthusiasm for fair play. We have compiled a summary of all these activities and tried our best to paint a picture of words for you to view.

Considering the size of the school and its number of students, there were more activities than we were able to accommodate here. For this reason, the admin has picked the most rewarding events to publish.

My sincerest wishes to the graduating batch 2022.

## From the Desk of Principal

Dear Reader,

This is the story of a shy boy who was extremely excited to be in his new school yet was afraid of the huge campus and so many children around him. He did not have the confidence to talk to the teachers and was sometimes bullied by the senior students of the school. He was sure that his teachers and parents had complete faith in him to become a very successful person. When this boy completed his matriculation, he was sure that he wanted to be a doctor as

his parents also wanted him to be one. Life had a different plan for him and he became a teacher - which was also highly recommended through a rigorous career counseling process from an NGO.

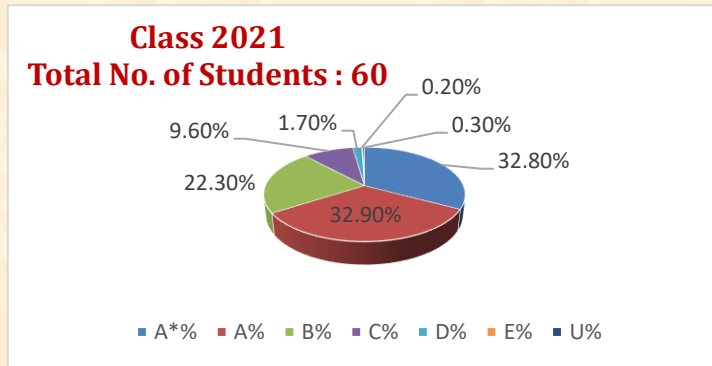

With the passion and drive to excel in the teaching profession he finally managed to complete his Master's degree in Education with a lot of support from his family and his teachers. This was a great leap in his career and he ultimately became the principal of a well-reputed school in Karachi. He did not stop growing and served in leadership positions at national and international levels. With his credentials and experiences, he ultimately became the principal of his alma mater.

This story is of none other than Minhas Haider Ali Tejani, the 16<sup>th</sup> Principal of Habib Public School. I am extremely delighted to share my story with the HPS fraternity. The shy boy has now become brave, educated and experienced to lead his own school. May Allah (swt) give us the wisdom to take this school to the level of excellence.

## In loving memory of M. Umer, Student of IV-N

Indeed we belong to Allah, and indeed to  
Him we will return.  
Quran 2:156

M. Umer, a very dear student of  
our Junior Section, met his  
creator on Monday morning,  
February 21, 2022.

May Allah rest his soul in peace  
and give courage to the parents,  
relatives and friends to bear  
this irreparable loss.

The management and the staff  
of Habib Public School is highly  
grieved at the great loss of the  
brilliant student.

**M. Umer will be missed by  
teachers and his fellow  
Habibians.**

### Student Council 2021-22

*"Leadership and learning are indispensable to each other"*- John F Kennedy.

Leadership and teamwork skills can give a student the opportunity to acquire, identify and display effective communication and interpersonal skills.

Our young Habibians are our future. We enrich them with love, wisdom and knowledge so that they can blossom.

### Open Day 2022

The Habib Public School opened its  
gates to welcome our guests for the  
Open day on 15<sup>th</sup> January, 2022.

The event helped the prospective  
parents get a better idea about the  
school program and the important  
role it plays in students' growth and  
development.

### The Duke of Edinburgh

The Duke of Edinburgh's annual award ceremony was held on 4<sup>th</sup> & 5<sup>th</sup> February 2022. This year more than two hundred students were registered for the 'Silver and Bronze' award. Participants went to the Mubarak village for a hike and exploration. Through these activities, students enrich and improve their physical and mental capabilities.
