JOURNEYS BEYOND HABIB

KHAWAJA AMIR NASEEM

BATCH OF 1975

A Journey Back to the Roots The halls of Habib Public School recently welcomed back a familiar face from its storied past. Khawaja Amir Naseem, a proud Habibian from the Batch of 1975, returned to his alma mater after five decades. His visit highlighted the significant "step-function" growth the institution has achieved while remaining steadfast in the core values that define the Habibian spirit.

The Evolution of Excellence During an emotional walkthrough, Mr. Naseem observed the school's exponential transformation since his time as a student. Reflecting on his interactions with the current student body, he noted that today's students possess a level of confidence and capability that surpasses previous generations, representing a major leap forward for the institution.

Cultivating Future Leaders What stood out most was the shift toward an innovative, "outside the box" mindset. Mr. Naseem remarked that Habib Public School is actively cultivating a new generation of leaders rather than followers. Reinvigorated by the modern environment and the talent of the youth, he promised to return more frequently, noting that the atmosphere of his alma mater remains truly recharging.

No achievement is big or small! If you'd like to get featured in the newsletter, reach out to us at hps.communications@habibschools.edu.pk, and we'll take it from there.

THEN VS NOW: *A CAMPUS* **REIMAGINED**

JUNIOR ROBOTIC LAB

A world of high-tech exploration now awaits young learners in the newly constructed, state-of-the-art Junior Robotics Lab. This facility is far more than just a classroom; it is a vibrant innovation hub where students transition from passive learners into confident "Tech Mentors" of the future. Starting as early as Grade 1, students are empowered to explore, create, and lead in a space designed specifically for cognitive and technical growth.

THEN VS NOW: *A CAMPUS* **REIMAGINED**

In this dedicated environment, children engage in hands-on engineering by using the latest LEGO SPIKE Prime kits and robotic modules to bring ideas to life. Lessons involve mastering coding and logic, moving from block-based sequences to Python as students breathe life into robotic creations. By merging Science, Technology, Engineering, and Math into real-world projects, the lab offers a modern, ergonomic workspace that fosters collaborative intelligence and the critical thinking skills needed to thrive

While the tools of discovery have evolved from pens and paper to sensors and circuits, the mission to nurture visionary architects remains the same. This new facility ensures that the youngest Habibians are equipped to lead with confidence in a globalized, tech-driven world. By combining modern innovation with a 60-year legacy of excellence, the next generation is prepared to engineer a better tomorrow.

CAUGHT *ON* CAMPUS

STRATEGIC PARTNERSHIPS: TANG EDUCATION SITE VISIT

Strengthening the CPEC Education Corridor Habib Public School recently welcomed the leadership team from Tang Education for an on-site visit to monitor the progress of our ongoing collaborative classes. With the MOU firmly in place, the campus is now a hub for specialized technical education and Mandarin language training, providing students with unique competitive advantages and guaranteed employment pathways upon graduation.

Observing the Mandarin Classes The visit focused on the Mandarin language sessions currently being conducted at HPS. The Tang Education team observed the interactive teaching methods and the impressive progress made by students in mastering the language—a key skill for future leaders in the regional economic landscape. During their visit, the team met with the Principal and faculty to discuss the successful integration of these classes into the curriculum.

A Legacy of Support The school remains grateful to our distinguished alumnus, Mr. Mansoor Siddiqui, the Establishment Director of Tang Education. His commitment to bringing global educational standards to his alma mater ensures that our students are well-prepared for the evolving demands of the international job market.

50 YEARS OF BROTHERHOOD: THE BATCH OF 1975 RETURNS HOME!

Habib Public School celebrated a historic milestone with the Golden Jubilee Reunion of the Alumni Batch of 1975. These visionary architects of our legacy returned to honor fifty years of a brotherhood that remains eternal. Their selfless dedication has been instrumental in shaping the world-class facilities and spirit we see today. We are honored to have hosted the Batch of 1975a group that truly represents the heartbeat of our institution.

CHAMPIONS IN THE MAKING: SPORTS DAY 2025-26

Habib Public School hosted vibrant Junior and Pre-Junior Sports Day events on January 23rd and 24th, 2026. Junior athletes displayed discipline through a formal March Past, Taekwondo, and professional-level track competitions. Pre-Junior students showcased coordination through a creative Bicycle Parade and themed races like the Monkey Banana Race. The weekend celebrated physical excellence and teamwork, embodying the enduring Habibian spirit across all age groups.

BRIDGING *GENERATIONS*

Once a Habibian, always connected! Return, give back, and shape the future.

HOW YOU CAN MAKE AN IMPACT:

Talk About Your Career

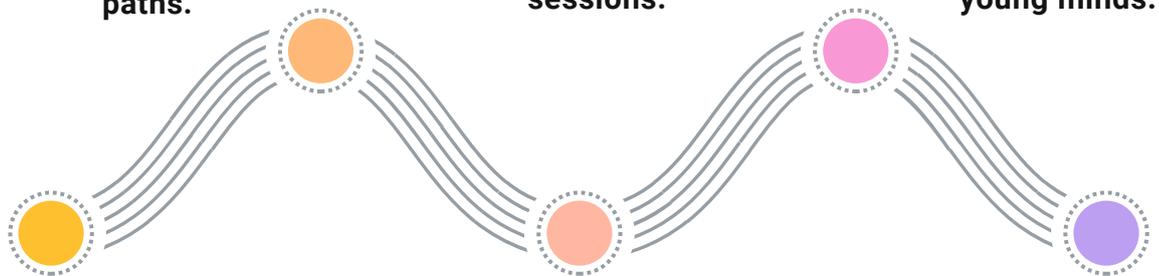

Share real-world job experiences and career paths.

Host a Wellbeing Session

Guide students through regular group mentoring sessions.

Mentor the Students

Share startup stories and business tips for young minds.

Teach a Skill

Teach useful skills like public speaking, writing, or coding.

Help Arrange a Field Trip/ Internship

Inspire students through community work and activism.

Every small effort matters! If you'd like to give back in any of these ways, reach out to us at hps.communications@habibschoools.edu.pk, and we'll take it from there.

HABIB EDUCATION TRUST

ACE Program (Academic Capability Empowerment)

The Habib Education Trust believes that financial challenges should never limit a child's access to quality education.

Through ACE Program, deserving students from underprivileged families are given the opportunity to study at Habib Schools through a dedicated entry route. ACE scholars receive full support, including:

- 100% school fee subsidy
- Free transportation
- Textbooks and learning materials
- Complete school uniform
